

\$125,000 IN COUNTY ROAD JOBS STARTED

State Highway Department workmen under the direction of Superintendent Clyde O. Garber on Thursday completed the first major road surfacing job of the summer in Adams County and turned today to the Gettysburg-Bonneauville Rd. for their next assignment.

Superintendent Garber listed today road surfacing jobs costing more than \$125,000 already set up for the summer and said others will be added later.

The initial job, which was completed on Thursday, was started Monday at Heidlersburg. There state workmen placed a 1 1/2-inch covering of bituminous concrete on Route 15, extending north and south of the town. The job cost \$12,500.

BONNEAUVILLE PROJECT

The Bonneauville project will cost \$17,300 and will cover 2 1/2 miles of the highway from White Run to Bonneauville. A 1 1/2-inch surface coating of the same bituminous concrete material will be applied.

Next job on the summer list will be surfacing of a three-mile section of the East Berlin-Abbotstown highway in Berwick and Hamilton Twp. That job will cost \$17,025.

Another surfacing job slated to be completed within a month is the application of a three-inch binder and top course on a mile of the road from Pitzer's Corner to Aspers. The cost is \$18,000.

FAIRFIELD RD.

An "early summer" contract job will be the surfacing of the Fairfield Rd. from Gettysburg borough west for a distance of two miles. The contract for that work has been awarded to the Gettysburg Asphalt Company on a "per ton in place" basis. No overall cost figure for the project was available today.

Forty-five miles of state roads in the county are listed for "tar and chip" surface sealing treatment this summer. The state workmen will apply 103,000 gallons of oil and about 5,400 tons of stone chips and the work will cost the state \$46,000.

All of these projects with the exception of the contract job on Fairfield Rd. will be handled by the state highway's permanent work force of about 130 men which is being augmented by about 20 extras for the heavy summer schedule.

OTHER ROAD JOBS

Another state contract road job, involving some new construction, is on the drawing boards for late summer or fall for the section of Route 140 from Littlestown to the Maryland line.

Three "motor paver" assignments and other road work are being planned now for later announcement by Superintendent Garber.

"Dust layer" work has been going ahead on 28 miles of unsurfaced state roads in the county and the first application of calcium chloride has been placed. In some cases oil has been used instead of the calcium chloride. Where the chloride has been used, a second application will be made later. This "dust layer" project is costing \$12,900 for the summer. Some of the unsurfaced roads in the county are scheduled for improvement this summer, Garber said, and promised an announcement later when plans are complete.

State highway workmen are continuing to repair winter damage to many secondary state roads and in that project are giving special attention to improved road-side drainage as an element in avoiding similar freezing damage in the future. A month of work remains to be done on the "winter damage repair" project, Garber said.

France Wants Truce Teams Fully Equipped To Enforce Cease-Fire Orders In Laos

By GEORGE SYVERTSEN
GENEVA (AP)—France today called on the international conference on Laos to give truce teams new orders and equipment for enforcing the Laotian cease-fire.

"The cease-fire does not exist as yet," said Jean Chauvel of France in an allusion to repeated Communist violations of the truce.

Chauvel said the International Control Commission, hamstrung by lack of transport and guidance, should get "the directives it requests and the means it declares are needed for its work."

He defended French proposals for establishing Laos as a neutral buffer state on the borders of Communist China and for guaranteeing its independence.

NEW WRANGLING

Replying to Communist criticism, Chauvel said the French plan would give the control commission no powers of management, legislation or administration that could be interpreted as interference in the internal affairs of Laos.

TWELVE DONATE BLOOD

Warner Hospital this week were: Kenneth Reinhart, Patricia Hollingsworth, Vincent Sanders and Ross Myers, Gettysburg; Fred Shive and Donald Thomas, York Springs; Cassell Roop, New Windsor, Md.; Robert Myers and Richard Six, Union Bridge, Md.; S. Sarah Metz, Littlestown, and Clarence Shorb and Paul Shockley, Emmitsburg, Md.

France Wants Truce Teams Fully Equipped To Enforce Cease-Fire Orders In Laos

He said the commission's role should be limited to reporting events in Laos to the conference. Chauvel's comments on the cease-fire were the first in a new outbreak of wrangling over the sporadic fighting still going on in the little Southeast Asian kingdom.

The commission was having trouble with the Laotians themselves. Representatives of the pro-Western government walked out of truce talks at the village of Ban Namone this morning because the pro-Communist rebels refused to let commission members sit in on the talks.

Within the commission, there was also disagreement on what its inspection rights should be. The Indians want to visit only the spots all three sides agree on. The Canadians want the commission to visit any spot it chooses. Communist Poland, the third member, undoubtedly sides with the Pathet Lao in its refusal to let the commission visit rebel-held areas without rebel permission.

Coldest June 16 On Record Here

Meeting in the Hotel Gettysburg Thursday evening more than 200 volunteers launched the public phase of the Warner Hospital surgical floor fund which seeks a total of \$350,000 in public subscriptions. The workers enthusiastically applauded the announcement that more than \$193,826 has already been pledged to the fund through the advance committees which have been working since April 19.

With the campaign scheduled to close June 29, campaign workers have two weeks to complete the fund and the advance committees will continue their activities throughout the campaign, it was announced.

The third and final phase of a three-phase building program, which began in 1955, was continued in 1957 and is now nearing completion of an entirely new surgical floor. The success of the present appeal will assure a completely modern Warner Hospital without debt.

ALC EXTENDS VOTE AS FIRST MEETING ENDS

Eastern District leaders in the American Lutheran Church adjourned their first annual convention at Gettysburg College today and headed home with hope for further growth and Christian service.

They were assured by mission builders that 16 new congregations are planned for the next 12 months in this long Atlantic seaboard region — from Quebec through Florida.

They were challenged also to serve God "more effectively and diligently in working while it is still day."

FINAL LECTURE

The 450 laymen, pastors and officials completed business chores Thursday night and closed on a spiritual note this morning with a final lecture by Dr. Alvin N. Rogness, St. Paul, Minn., president of Luther Theological Seminary. He had discussed "When Is a Church a Great Church?" in daily appearances.

In one of its final actions, the convention moved for a constitutional change which will extend voting privileges to all clerical people not serving as congregation pastors.

By so doing, they gave convention votes to chaplains, teachers, pastor emeriti, institution workers and regional staff men of the church now serving the district.

ABOUT 80 AFFECTED

Dr. Gordon S. Huffman, Washington, D. C., district president, said the extension would affect at least 80 persons on the district clerical roster.

The ALC constitution has provided that only laymen elected in their home congregation and parish pastors would be voting delegates at conventions.

A long report from the convention resolutions committee carefully avoided any issue that would produce "fireworks" as the delegates worked overtime Thursday night.

One recommendation, seeking to ban "commercialism" in all fundraising for the church was referred for further study. The national church body has not yet established policy in this field.

The ALC is now in its sixth month of "life" following the official union of the former United Evangelical, American and Evangelical Lutheran Churches last January 1. The Eastern District has 83,000 members (confirmed) in 260 congregations.

Standing committees for the district met for reorganization before the group disbanded. Members were elected Wednesday.

Raffensperger, co-chairmen of the campaign's public phase, expressed pride in the fact that 471 volunteers have enlisted in the effort which began Thursday night and will close with a victory dinner on June 29. Mr. Raffensperger explained that the key to success would be the acceptance of the six-payment plan offered to all subscribers to the fund. "It was through the acceptance of this plan that the 1957 appeal succeeded and I have every confidence it will succeed again if you follow the proven method."

Speaking for the women's teams in Gettysburg and for all the women who constitute the larger number of volunteers, Mrs. Teeter reminded the audience that in the earlier appeal it was the women's teams which led the procession. COURT OKAYS CONVICTIONS IN ROAD CASE

PHILADELPHIA (AP)—The Pennsylvania Superior Court, ruling that a former state senator and three other Beaver County men were granted an "impartial and more than fair trial," has affirmed their conviction on charges stemming from a highways kickback scheme.

Judge Harold L. Ervin wrote the majority opinion which affirmed the convictions of former State Sen. Samuel G. Neff and Robert Yoho, former Democratic County chairman; Leon Kaleta, a former Highway Department ment foreman; and James Macry, who was secretary of the Democratic County Committee.

The Superior Court turned down pleas by counsel for the men that there were 13 trial errors in the trial heard by Judge Morgan H. Sohn. The appellate court ruled the pleas were without justification.

OTHER ISSUES
The court also rejected Thursday an allegation that the statute of limitations for indictment had expired on some specific issues in the case.

Judge G. Harold Watkins filed a dissent in which he was joined by Judge Robert E. Woodside. Watkins wrote: "If the solicitation of funds for campaign purposes by political committees from contractors (doing or seeking state work) is illegal, then the jails of this Commonwealth are due for a large increase in population."

WATKINS DISSENTS
Watkins said he didn't believe the evidence was sufficient for conviction. He said the jury was affected by overtones of publicity and politics.

The men had appealed from Beaver County Court where they were convicted in 1959 of collecting money from contractors who leased equipment from the State Department of Highways.

Neff and Yoho were fined \$500 each and sentenced to 6 months to 2 years in jail. Kaleta drew a \$100 fine and a 2-month to 2-year jail term. Macry was ordered placed on probation.

FREE ON BOND
The men had been free on bond. The Superior Court ordered them to appear at the Beaver County Court when directed so they can begin to serve their sentences.

In another case Thursday, the State of Pennsylvania asked the Superior Court to uphold a driver's license suspension in the Commonwealth on the basis of a New Jersey violation, even though the means of determining the infraction are illegal in Pennsylvania.

LICENSE CARE
The agreement between the two states for mutual license suspension in either state is at issue. The case revolved around Francis E. Sheehy, a bus driver, whose license was suspended in New Jersey and subsequently in Pennsylvania under the interstate agreement. Sheehy was convicted in New Jersey of driving 63 miles an hour in a 50-mile zone on the basis of radar, still illegal in Pennsylvania. Philadelphia Common Pleas Court had reinstated Sheehy's license.

PHILADELPHIA (AP)—Jefferson Medical College today awarded its 30,000th M. D. degree, laying claim at the same time to educating more physicians than any other medical school in the country.

IKE APPLAUDS SISTER-CITY ACTIVITIES

Former President Dwight D. Eisenhower told delegates to the World Conference on Local Governments meeting Wednesday in Washington, D. C., "No item on the agenda of domestic affairs is more crucial than the task of coping with problems arising out of the concentration of population in great metropolitan areas."

"One of the most deceptive doctrines," Eisenhower said, "is that political centralization is the great deterrent which can cleanse all the nagging social, economic, educational, and organizational disorders that beset humankind."

"Excessive centralization is a never-ceasing threat to our democratic future."

PROVIDE EFFICIENCY
"The mania that some overzealous central agencies seem to have developed for wanting to dominate rather than serve local government threatens to sap the vitality and creative initiative of community institutions. Assuredly, local governments should not accelerate this trend by defaulting on their own responsibilities."

"Cities provide heightened economic efficiency, better education, vaster social and cultural opportunities. I cite one example which the London Literary Times recently applauded. In 1920 there were less than 100 symphony orchestras in the United States. Today there are over 1,000. My own little town of Gettysburg now boasts a symphony orchestra."

Speaking of the town affiliation of sister-city program, Eisenhower said: "Five years ago I asked representatives of American citizens in all walks of life to join me in a discussion of how people could best get to know and understand each other across the barriers of language and geography. I then expressed the hope that multiplying thousands of private links from people to people would lead governments in the direction of peace."

"More than one thousand organizations and some 150 American cities and communities, ranging in size from New York City and its millions, to Oakland, Nebraska, with a population of 1,600 people, have responded. These 150 communities have established regular communication with their counterparts in more than forty countries of the free world."

"The process of entering into sister-city relationships has resulted in world-wide cooperation of many peoples, institutions and associations of a completely private, nonpolitical nature. Such affiliations focus the talents and resources of entire communities upon what I believe to be the most urgent task of our day—that of increasing international communication and understanding."

"My friends, out of a lifetime's experience I have become ever more convinced that peoples everywhere, regardless of the nature of their society or their government, desperately want peace. If by some magic manipulation people across the earth could take their destiny into their own hands, there would be no war."

Then the teachers will divide into discussion groups to consider "a reasonable day's activity" for elementary, junior high and high school pupils. H. ENDS ON THURSDAY
Percy L. Cable, an assistant York County superintendent who recently headed a committee which conducted the first evaluation of the Gettysburg Elementary Schools, will be consultant for the elementary group. That afternoon the teachers schedule a picnic at Laurel Lake Lodge and a dinner there to be followed by a "bull session" on how best to utilize the potential of the summer school.

Dr. Russell Rosenberger, head of the department of education at Gettysburg College, will serve as coordinator for Thursday's sessions. After the second address by Dr. McAuley, the discussion groups will resume their sessions. Summary reports are scheduled for a general meeting Thursday afternoon with a brief business session to follow.

OTTAWA (AP)—Canada, which had balanced budgets even after World War II, ran in the red again in its last fiscal year—and more heavily than the government had expected.

Finance Minister Donald M. Fleming announced today the last year closed with a budget deficit of \$345.5 million. That was \$59.5 million more than he had predicted in December. His original budget in March 1960 predicted a \$12 million surplus.

The cause was recession.

CASTRO TRADE HANGING FIRE

WASHINGTON (AP)—The Tractors-for-Freedom Committee has received a secret report from the four technicians who negotiated with Fidel Castro on his plan to exchange men for machines.

Evidently no decision was arrived at by the committee Thursday night on whether to accept the Cuban prime minister's latest demands. He wants \$28 million worth of farm tractors for 1,167 Cuban rebels captured in their abortive invasion of Cuba April 17.

A spokesman said early today that the committee would receive a fuller written report from the technicians before making any kind of statement.

He added there likely would be no statement for at least 24 to 48 hours.

At the secret session in Washington, which lasted to near midnight, the four experts reported to Mrs. Franklin D. Roosevelt,

B. AND P. CLUB

(Continued From Page 1)

The Business and Professional Women's Club was the largest federated women's club in the United States. It is nonsectarian, nonpartisan and self-supporting, joining all members together in a circle of friendship and work to elevate the position of women in the world.

INSTALL OFFICERS
Miss Daniels installed the officers outlining the duties of each and reminding them that their "conduct reflects upon your club in your community." The Gettysburg officers installed are: President, Mrs. Edith Bushman; first vice president, Miss Roberta Blittinger; second vice president, Mrs. Conway S. Williams; recording secretary, Miss Regina McIntyre; corresponding secretary, Miss L. Myrle Stauffer; and treasurer, Mrs. Lee M. Hartman.

Miss Mayme McDowell, past district director and member of the York club, initiated the new members using a candlelight service. She outlined the four-point purpose of the federation: First, to elevate the standards for women in business and the professions; second, to promote the interests of business and professional women; third, to bring about a spirit of cooperation among the business and professional women of the United States; and fourth to extend opportunities to business and professional women through education along lines of industrial, scientific and vocational activities.

New members from Gettysburg were Mrs. Edna Hartzell, Miss Beatrice Pfeiffer, Mrs. Natalie Conover, Mrs. Lillian R. Fisel, Mrs. Sandra A. Bevenour, Miss Eva Jane Schwartz, Miss Freda Troxell and Mrs. Verna Moser.

Brennan, who has always liked bagpipe music, purchased his bagpipes on Memorial Day, 1960, and has been busy taking lessons and practicing ever since. He gets his instruction in Pittsburgh, where the famed Carnegie Tech Kiltie Band holds forth, every Wednesday evening in the summer and on Saturday mornings in the winter. He plays no other instrument.

A constant traveler because of his duties, Brennan is frequently hard put to it to find a place to practice—bagpipes being what they are. Generally he settles down at the edge of town, where the skirling will not bother residents and puffs away at his music. Even on the road he finds time to practice every day. His favorite Gettysburg practice spot is the water works covered bridge area.

Bagpiping, un-Scots-like, can be a luxurious hobby since the instruments range in price from \$75 to \$500.

Brennan, who for two hours on the Caledonia heath outlasted the thunder and lightning, has been with Manufacturers Light and Heat for four years. Prior to his present duties, he had been a fund raiser for Chambers of Commerce.

WEATHER TOLL IS MOUNTING THROUGH WEST

By THE ASSOCIATED PRESS

Western states counted a heavy toll Friday from weather extremes that ranged from oppressive heat in the Far West to rain in New Mexico and flash flooding in some parts of Texas.

At least seven deaths were recorded in California from heat prostration Thursday and an eighth person died as a result of sweltering temperatures in Oregon.

Poultry and crop losses in California were expected to exceed \$1 million.

17 DROWNING
The weather was regarded as a contributing factor in 17 drownings—most of them in the Pacific Northwest and the Mountain States.

A troublesome fire broke out during Southern California's heat wave. The flames fed on rain-saturated brush in the San Gabriel Canyon 25 miles east of Los Angeles and were pushed by hot, turbulent winds.

At last report, it had covered 1,600 acres.

CANYON FIRE
Another fire—in Mint Canyon to the north of Los Angeles—was contained Thursday after burning 5,000 acres.

Rain came to the aid of New Mexico fire crews ending a stubborn, 600-acre blaze in high country east of Tierra Amarilla.

Temperatures Thursday included 108 degrees at Portland, 84 in San Francisco, 83 in Los Angeles and 122 at Palm Desert, Calif. Inland California cities almost all hit 100-plus.

In contrast to the hot blasts in the western sections, unseasonably cool weather continued in most of the eastern two-thirds of the nation.

Negro Is Assigned To White House SS

WASHINGTON (AP)—For the first time, a Negro is one of the Secret Service agents guarding the President.

The agent, Abraham Bolden, is on a 30-day temporary assignment to the White House detail. If he does all right, he could be assigned there permanently.

Michael Torina, chief inspector of the Secret Service, said Bolden was routinely transferred from Chicago and "we aren't making biographical matter, as is the same for any other agent."

Waiter P. Reuther, and Joseph H. Dodge, a fourth member of the committee, Dr. Milton Eisenhower, was not present. Keith Spaulding represented him.

There are 61 interchanges on the 553-mile New York State Thruway.

GAS COMPANY OFFICIAL IS BAGPIPE FAN

James J. Brennan, Mt. Lebanon, Pa., news bureau manager of the Manufacturers Light and Heat Company and well known in Gettysburg, fitted the proper music to Caledonia Park Tuesday evening when he gave an impromptu bagpipe concert in the rain. The skirling pipe brought a

JAMES J. BRENNAN

Caledonia ranger on the run, not to expel the musician as Brennan feared, but merely to share the music.

Brennan, who has always liked bagpipe music, purchased his bagpipes on Memorial Day, 1960, and has been busy taking lessons and practicing ever since. He gets his instruction in Pittsburgh, where the famed Carnegie Tech Kiltie Band holds forth, every Wednesday evening in the summer and on Saturday mornings in the winter. He plays no other instrument.

A constant traveler because of his duties, Brennan is frequently hard put to it to find a place to practice—bagpipes being what they are. Generally he settles down at the edge of town, where the skirling will not bother residents and puffs away at his music. Even on the road he finds time to practice every day. His favorite Gettysburg practice spot is the water works covered bridge area.

Bagpiping, un-Scots-like, can be a luxurious hobby since the instruments range in price from \$75 to \$500.

Brennan, who for two hours on the Caledonia heath outlasted the thunder and lightning, has been with Manufacturers Light and Heat for four years. Prior to his present duties, he had been a fund raiser for Chambers of Commerce.

The county boys won two gold medals and a handful of silver and bronze medals in judging and other competitions on Tuesday and then devoted Wednesday to attending educational demonstrations in all fields of agriculture, including a demonstration of the opportunities offered by a career in agriculture.

Richard C. Lighter, vocational agriculture adviser for Adams and Franklin counties, was in charge of the wildlife demonstration seen Wednesday by more than 300 boys.

Certificates were awarded to winners, newly-elected officers spoke and there was music by the state FFA band and chorus at the final awards ceremony in Schwab auditorium on the PSU campus Thursday morning.

Prof. Carey Moore, assistant professor of Bible at Gettysburg College, will give the opening lecture at the conference on Sunday evening.

The conference will close next Saturday morning.

HIKE DEBT LIMIT
WASHINGTON (AP)—The House Ways and Means Committee has swiftly approved President Kennedy's request for a temporary \$5 billion increase in the national debt limit.

The quick action makes it possible for the House to vote on the raised ceiling next week.

Local Churchmen Going To New York

The weekly meetings of the Gettysburg congregation of Jehovah's Witnesses will be cancelled from June 20 to June 25, when they will resume on their regular schedule, according to Harold Cluck, presiding minister of the congregation.

The reason for this change is that many members of the congregation will be attending the "United Worshipers' Assembly" in New York City from June 20 to 25.

Featured speech of the convention will be "When All Nations Unite Under God's Kingdom" by Nathan H. Knorr, president of the Watchtower Bible and Tract Society on Sunday, June 25.

CHOOSES AMBASSADOR

WASHINGTON (AP)—President Kennedy today chose Robert F. Woodward, now ambassador to Chile, to be assistant secretary of state for inter-American affairs.

The selection of Woodward ends a long hunt for someone to fill the inter-American post.

Woodward is a career diplomat who has served in various posts in Latin America.

VIENNA BALKS PLANS OF TWO YANKS TO WED

VIENNA, Austria (AP)—Their marriage plans foiled, actress Lauren Bacall and actor Jason Robards Jr. huffed out of town today charging that Vienna authorities do not love a lover.

Peter Witte, their representative, read a statement to reporters saying Austrian justice authorities refused to grant a marriage license despite a personal appeal to Justice Minister Christian Broda, to forego certain legal requirements.

"It is deeply regrettable that the marriage between two well-known artists who had decided on Vienna for reasons of love and romance has been prevented," said Witte. "Apparently Vienna is not so romantic as the two artists had hoped. It seems that the authorities in Vienna have heard nothing of the American adage 'Everybody loves a lover.'"

Witte said refusal to grant a marriage license was based primarily on Robards' Mexican divorce. He said authorities asserted it can not be recognized here "as a matter of principle."

Witte said Miss Bacall had been unable to produce a death certificate for her husband, Humphrey Bogart, who died of cancer in Hollywood in January 1957. And Robards, Witte added, lacked certification of the Mexican divorce his wife, Rachel, obtained in April.

"I am afraid they are taking such things too lightly," said Dr. Viktor Hoyer, an official of the Justice Ministry. "For me, Hollywood stars are in no way different from Frau Mayer or Herr Mueller. Stars, too, have to comply with Austrian laws."

GARBAGE STOLEN

PHILADELPHIA (AP)—A large truck and its cargo were stolen today from in front of a mid-city restaurant where the driver was having a bite to eat. The driver, Nicholas Polen Jr., 20, of New Sharon, N. J., said he couldn't understand why anyone would take the truck, loaded with garbage.

FIFTEEN YEARS AGO
Miss Warman, Richard Nau-
gle Wed On Sunday: Miss Ruth
Arlene Warman, daughter of
Arthur W. Warman, East Middle
Street, and Richard B. Nau-
gle, son of Mr. and Mrs. George W.
Nau-
gle, North Stratton Street,
were united in marriage Sunday
afternoon at 3:30 o'clock in the
Presbyterian Church here.

The double-ring ceremony was
performed by the Rev. Robert
M. Hunt, pastor of the bride. The
church was decorated with gar-
den flowers, palms and candel-
abra.

Colonel Rice Promises To
Make "Democracy Work" In Ac-
ceptance Address Here: Accept-
ing the Democratic nomination
for governor at the official noti-
fication ceremonies here Satur-
day afternoon, Col. John S. Rice,
native son of Adams county and
veteran of both World Wars,
promised to prove to the people
of Pennsylvania "and to all the
world that we know how to make
democracy work," and called
upon liberal Republicans and
supporters of John U. Shroyer in
the recent Republican primary,
as well as all Democrats, to
place Pennsylvania in the fore-
front among the 48 states of the
nation, by backing the Demo-
cratic slate.

Single Crash Reported In
Heavy Traffic: "The heaviest
traffic since before the war."
That was the way one member
of the local substation of the
state police summed up the traf-
fic in the Gettysburg area Sun-
day afternoon. As he spoke cars
were traveling almost bumper
to bumper in fashion similar to
the Sunday afternoons of the
years preceding gas rationing,
tire rationing and few new cars.

There was only one accident
reported by the state police to
spoil an otherwise perfect day
for motoring, but the officers
were busy making arrests of
those who violated the rules of
the highway and thus en-
dangered the lives of other mo-
torists.

Educators Gather Here: Fifty
educators from York, Adams and
Franklin counties and from
Carroll county, Maryland, regis-
tered this morning at the SCA
building, college campus, for the
second annual secondary school
conference being held here to-
day, Tuesday and Wednesday.
An additional group was ex-
pected to arrive this afternoon.

The discussion this morning
was based on legislation and
techniques affecting education,
on-the-job and apprentice train-
ing of veterans, Henry J.
Miller, president of the York
county schoolmen's club, pre-
sided with Harvey E. Swartz,
York county superintendent of
schools, as discussion leader.

Dr. Rasmussen Is Going
Abroad On Church Task: Dr.
Carl C. Rasmussen, of the Sem-
inary faculty, will leave June 28
aboard an American Air Lines
plane at Philadelphia on the first
part of a five-month trip
that will take him on tour
through Denmark, Norway, Swe-
den and Finland for the board
of publications of the United Lu-
theran Church.

Doctor Rasmussen plans to
fly from Philadelphia to London
and from there to Copenhagen,
Denmark, where he will begin
his tour of the Scandinavian
countries as a representative of
the Lutheran Church in America
in contact with the Lutherans of
those four countries.

Army Hints Fantastic Weapon
As Atom Defense: Washington —
The army lifted the edge of a
blue-print briefly today to dis-
close a fantastic weapon that
may develop into a defense
against atomic rockets or ar-
mored space ships laden with
A-bombs.

It is a jet of molten metal
which has an initial velocity of
almost five miles a second.

Today's Talk
YOU KNOW THINGS
We never know from the looks
of a man how much money he
has in the bank.

Neither do we know the wealth
of unexplored knowledge that
lies hidden in the brains of other
people. Neither you nor I know
the extent, even, of what we
have within our own minds.

Let the right spark but light on
the right spot—and who knows
what may be awakened?

We look upon some man or
woman who has achieved much,
and belittle our own possibilities.
You do not know your wonder-
ful potentials until you have dug
tapped them, until you have dug
deep, until you have turned up
the soil of your mind and learned
what you have to work upon.

One thing is certain—you have
things!

There are no two brains alike
in all this world. You have things
that no one else has. Simply de-
velop and cultivate what you
have, and it will not be long be-
fore you will stand out with that
something no one else has. This
will give you distinction.

Every mind reacts to what it
sees in a different way. No two
persons see or feel the same.

There is nothing so inspiring to
the world as original expres-
sion.

And there is no other way to
attain original expression quite
equal to getting off of beaten
paths—blazing new trails—think-
ing for yourself.

You know things. Get them out
of your mind. Associate your
ideas with those of others. Try
them upon the flint of minds
that have already had the cour-
age to express what they
honestly thought.

And then battle for your ideas!

Just Folks
THE DIRTY BOY
You're as dirty as can be,
There is chocolate on your face;
There is mud upon each knee
And your clothing's a disgrace.
You were spick and span this
morn,
Dressed in proper baby style.
Now your rompers you have torn,
But you've surely kept your
smile.

How can little hands acquire
So much dirt and dust and
grime?
Is it possible in mire
You go playing all the time?
You're a sweaty little tyke
And as sneaky as can be;
But your smile is what I like;
It is surely good to see.

Find the mud and wallow there;
Fill your little shoes with sand;
Rub the dirt into your hair
With each little grimy hand.
These are signs that you are well,
And they make your daddy
glad;
When you're dirty he can tell
What a lot of fun you've had.

Electric Air Conditioner

Weather control at her fingertips assures this housewife that her family will sleep well, feel better, have better appetites, and enjoy a happier mental outlook all summer long. A modern electric room air conditioner creates comfort by cooling the air, dehumidifying it, and filtering out dust, pollen, and lint.

Just a few years ago most everyone would have chuckled heartily at the idea that humans one day would be able to control weather at the push of a button or the flick of a switch.

Today that's just what a modern electric room air conditioner provides—fingertip weather control all summer long. All the laughing now is being done by happy families enjoying complete comfort in rooms equipped with air conditioning units.

Modern room air conditioners do more than just cool the air. Here are some of the other important benefits they provide.

Dry air. Room air is scientifically dehumidified, doing away with damp discomfort and the annoyance of clinging clothes.

Filter-pure air. Room air passes through filters that remove dust, dirt, soot, smoke, pollen, and lint. Allergy sufferers feel better, and walls, furniture, floors, curtains, and draperies stay cleaner longer, resulting in less housework.

Movable grilles or deflectors. Today's room air conditioning units are designed to permit air flow to be shifted in any direction, resulting in complete comfort control in any portion of the room.

More quiet, more relaxation. With a room air conditioner in operation, windows are kept closed against outside noises—ideal for older people, invalids, and children napping. Dispositions are better throughout the entire family when nerve-jangling noises are blocked out. Today's room air conditioners contribute to the quiet and relaxation by operating almost silently.

Year-around fresh air. On cooler days the unit can be operated without cooling. Air is filtered, freshened, and circulated throughout the room. This is an especial

valuable feature at parties.

Better appetites. Summer appetites perk up magically when a home is equipped with room air conditioners. Children feel like eating the food so necessary to their health and good growth, and adults are less inclined to turn up their noses at foods they need to maintain health and energy.

NAB CONVICT AT RED LIGHT

LIVINGSTON, N. J. (AP)—An escapee from a Pennsylvania prison was captured Thursday because he failed to stop for a red light.

Joseph J. Olecki, 23, of Scranton, Pa., was arrested in a stolen car by patrolman Donald Jones after Olecki had driven through the light.

Police said the Pennsylvanian had escaped June 2 from the Rockview State Prison in Bellefonte, Pa., where he was serving time for auto theft.

They said Olecki admitted stealing a car after his escape and driving to Newark. He told detectives he subsequently abandoned that car and stole another one in South Orange. Police said he also burglarized a home in short hills and tried unsuccessfully to cash a \$200 check with a bank book he had found in the house.

Jones said Olecki was carrying a hunting knife, a screwdriver, a flashlight and an 1863 silver dollar when he was arrested.

U. S. AIRMAN BEATS BRITON

TURNBERRY, Scotland (AP)—Ralph Morrow, 27-year-old United States airman from Oklahoma City, defeated Geoff Dixon of England today 3 and 2 in the quarterfinal round of the British Amateur Golf Championship.

Jimmy Walker, a 40-year-old Scot, defeated Joe Carr, 39, the Irishman who is defending champion, on the 19th hole of their match. Walker will meet Morrow the only American left in the competition, and a semifinal match this afternoon.

GOLF FANS ARE STILL DEVOTED TO BEN HOGAN

By DAVE DILES

Associated Press Sports Writer BIRMINGHAM, Mich. (AP)—The intense little man in the familiar white cap who socked his drive perfectly down the middle of the fairway, stuck another cigarette in his mouth and marched swiftly off the tee. A huge crowd went with him.

Golf fans are devoted to Ben Hogan, as they are to no other man who still swings a club.

He is the sentimental favorite, of course, in the U.S. Open. He always is. But the experts doubt that Hogan, at 48, can win an unprecedented fifth Open title.

"CAN'T PUTT"

"He can't putt any more," his old friends say. And the word has spread that Hogan "freezes on the green."

It was no sliver when a fellow Texan and Hogan's old friend, Byron Nelson, did not mention "The Hawk" when he was naming pre-tournament favorites.

"If Ben could just get those putts in, he'd win it," said Nelson. Hogan shot a first round 71 Thursday, one over par at the course where he won the Open in 1951. That left him only two shots away from the lead, but Hogan was not proud of the round.

4-TIME WINNER

"This course should have played easier than 71," Hogan remarked.

Hogan, the man who has made golf a study like Ted Williams studied baseball, won the Open in 1948, 1950, 1951 and 1953. He led last year at Denver with two holes to play, but then went 4-over-par.

"Generally, I thought I putted pretty well," he said of his first round work.

Someone asked if he thought three more 71 rounds would be good enough to win.

The man who won it with 287 here a decade ago answered quickly: "A 284 might win it this time, but it shouldn't."

Woman's Eastern Tourney Opens

HARRISBURG (AP)—The Women's Eastern Open Golf Tournament starts today at nearby Dillsburg's Range End Country Club with some of the nation's top women pros competing for the \$7,500 jackpot.

The three-day, 54-hole tournament features defending champion Mickey Wright, Betsy Rawls and Louise Suggs among the field of 34.

Marlene Hagge of Pittsburgh put her name high on the list of challengers for Miss Wright's crown Thursday as she was the only woman in the field to break par on the par 72 course during a best-ball pro-amateur warmup round.

She shot one-under 71 for the 18-hole game. The best-ball warm-up produced some interesting results on a chilly, windy day.

Little Bob Batdorf of Reading broke the 6,487-yard course record with a six-under-par 66, but his team tied for second.

The team of pro Jo Ann Prentice Birmingham, Ala., and amateurs Dick Burgoon and Bill Davidson of Carlisle finished first with a low ball 63.

PIRATES ADD JOHNNY LOGAN IN CIMOLI SWAP

PITTSBURGH (AP)—The Pittsburgh Pirates swapped outfielder Gino Cimoli for shortstop Johnny Logan of the Milwaukee Braves Thursday night to climax a busy day of front-office activity.

In other actions the Pirates sold catcher Bob Odis to their Columbus, Ohio, club in the International League and purchased catcher Don Leppert from Columbus; and asked waivers on infielder Gene Baker to make room for outfielder Walt Moryn, bought from the St. Louis Cardinals.

The 31-year-old Cimoli had a .299 average in 21 games. Logan, 34, batted .105 for the Braves in 18 games.

Leppert, just named to the International League's all-star team, was the loop's top hitter with a .391 average in 38 games. He is 27 years old.

A third-line catcher, Odis, 31, appeared in only four games for the Pirates and had no average.

If Baker is not claimed within the 72-hour waiver period, the Pirates said, he will be given an unconditional release. A utility man and pinch-hitter, Baker appeared in nine games and hit .100.

MORE PINCH HITTERS

The Pirates obtained Moryn for an undisclosed sum of cash and a minor league player to be named later. He had a .125 average with the Cards in 32 times at bat this season.

A Pirate spokesman said the Cimoli for Logan trade was not made as a player for player deal, but was made as part of the overall picture.

The spokesman said the acquisitions of Moryn and Logan were made to give the club more bench and pinchhitting strength. But this does not mean the two players will be used only as pinchhitters, he said.

NEWCOMER HAS 1-STROKE LEAD IN U. S. OPEN

By JERRY LISKA

Associated Press Sports Writer BIRMINGHAM, Mich. (AP)—A bright newcomer pro, Bobby Brue of Milwaukee, held a one stroke lead and was just about the only happy man in the 150-player field which plunged into the second round of the 61st U.S. Open Golf Tournament today.

Former champion Tommy Bolt, who usually just gets mad at himself, rankled over a spectator's tongue-lashing which apparently caused him to fall into a second-place deadlock at even-par 70 with Bob Goalby, another ambitious, if unheralded pro.

All except three players were over par in a temper-testing round at windswept Oakland Hills Thursday. Today's second 18-hole skirmishing will reduce the field to the top 50 and ties for Saturday's closing double-round.

HAD 3 BOGIES

Brue, 26, former University of Miami (Fla.) golf captain playing in his second Open, tamed Oakland Hills' par 35-35-70 course for the day's only sub-par round, 35-34-69.

Bolt took three bogies after a spectator called him a "schmoe"—a Jewish term roughly translated into "jerk"—on the 14th green.

Bolt had complained when a small girl ran across his line of vision on a putt. That brought the "Don't be a schmoe" crack from a spectator.

Bunched between 71 and 74 were no fewer than 46 famous and not-so-famous shooters, including six former Open champions.

Ben Hogan, seeking an unprecedented fifth Open title, was grouped with six others at 71, two strokes off the pace.

Nine players were locked at 72, including Doug Ford, Dow Finsterwald, Bob Rosburg and Dave Douglas.

Among 15 tied at 73 were 1955 U.S. Open champ Jack Fleck and Sammy Snead, who four times has been a bridesmaid, but never a winner in the Open.

The 73 crowd also included the

top amateurs, Bill Hyndman of Huntingdon Valley, Pa., and Fred Mosely of Madison, Wis.

There were 15 jammed at 74, among them four former Open titlists—defending champion Arnold Palmer, Billy Casper (1959) Julius Boros (1952) and Cary Middlecoff (1949).

SOUTHERN CALIFORNIA WINS NCAA TITLE

OMAHA (AP)—Southern California, with Jim Withers winning his 12th game of the season, captured the NCAA College Baseball World Series championship Thursday night on a 1-0 decision over Oklahoma State.

It was the third time Southern California has won the championship. The Trojans are the first to achieve such a distinction. They were 4-0 in the tourney.

Withers had a real battle to subdue Littleton Fowler, the Oklahoma State sophomore pitching ace who had 18 2-3 scoreless innings to his credit before the Trojans got to him for the one big run.

It was knocked in by 27-year-old Art Ersepke, a hitting star throughout for Southern California.

Fowler went home with the trophy as the outstanding player of the tourney. The Cowboy sophomore won two games, one in relief and one on a one-hitter.

CONGRESSMEN LOOKED TO FOR SOLUTION ON REDISTRICTING

HARRISBURG (AP) — Pennsylvania congressmen today held the possible solution to a General Assembly impasse on appropriations that would provide \$64 million in state aid to homes, hospitals and schools.

The congressmen were expected to report soon on whether the legislature should divide the state's present 30 districts into 27 or 28 districts.

Republicans have contended the appropriations bills are their whip hand to get what they term a fair congressional reapportionment plan. Previously, they vowed to defeat the bills unless Democrats gave them a commitment on reapportionment.

BACK UP THREAT

Democrats Wednesday called up the politically loaded measures for a vote, the GOP backed its threats, defeating in one, two, three order bills that would appropriate:

\$1,367,500 for 186 state-aided community hospitals (105-91).

\$435,069 for 52 state-aided homes (104-92).

\$15,000 for the Civil Air Patrol (104-94).

The Democrats called off further action on the 54-bill spending package.

NEEDED TWO THIRDS

The bills are classed under legislative rules as non-preferred appropriations. That means they must have a two-thirds majority—140 votes—in the House to win approval. Democrats have 109 votes; Republicans 101.

Rep. Stephen McCann, Democratic floor leader, declared a congressional reapportionment bill cannot be drawn until it is learned what Congress plans to do about increasing the size of its membership.

Without an increase in Congress, Pennsylvania would lose three of its 30 congressional seats because of population shifts recorded in the 1960 census.

SEVERAL PROPOSALS

McCann said the state's congressional delegation is expected to report this week "or next week at the latest" on plans. Meanwhile a bipartisan committee of state congressmen is working on a redistricting plan.

One proposal being studied by Congress, said McCann, would increase Congress to the extent that Pennsylvania would lose only two instead of three seats.

Rep. Albert W. Johnson, House GOP floor leader, appealed to the Democrats to sit down with Re-

Game Commission Provides Forage

HARRISBURG (AP)—The Forests and Waters Department and Game Commission are going to continue their cooperative efforts to thin tree growth and provide better forage for deer on state forest lands.

Secretary Maurice K. Goddard of the Forests and Waters Department Wednesday announced the expansion of the program which he said was very successful last year.

Under the system foresters mark trees to be cut, and Game Commission personnel cut them so that the tops and branches can serve as food for the deer. Heavy snows and the unusually rough weather last winter put a premium on the food for game animals in Pennsylvania.

TRACTOR DEAL MAY PROTECT 1,200 CUBANS

WASHINGTON (AP) — Kennedy administration officials believe the tractors for prisoners trade — whether it succeeds or fails—may save the lives of 1,200 Cuban invasion captives.

Nobody in Washington feels safe in predicting what action Prime Minister Fidel Castro will take next. But high government officials said Thursday the belief here is that Castro cannot afford now to wheel out his firing squads.

All the evidence adds up to a world-wide propaganda licking for Castro as a result of his offer to trade the prisoners for 500 tractors. Administration officials feel the whole affair has been particularly effective in unmasking in Latin America Castro's pose as a benefactor of the downtrodden.

EMBARRASSES REDS

Castro's offer appears to have embarrassed the Communists at a time when they were exploiting the failure of the American-approved invasion. It may have contributed to Soviet Premier Khrushchev's description of Castro as unstable, and not a Communist in the Soviet leader's recent talks with Kennedy in Vienna.

Kennedy was said by close associates and work out a congressional reapportionment plan at the state level.

"We are willing to give and willing to receive," said Johnson.

Defeat of the measures Wednesday does not mean they are wiped out completely. Under legislative rules a defeated bill may be revived within five legislative days by a majority vote. The House is expected to follow that procedure next week.

RIDERS HAVE NO TROUBLE IN CAROLINA

By THE ASSOCIATED PRESS

The Florida-bound "Freedom Riders" Thursday continued their protest against bus station segregation after testing South Carolina's citadel of racial separation without serious incident.

The largest of three groups left Sumter, S.C., without difficulty shortly after midnight, en route to Jacksonville, Fla. The four Jewish rabbis, eight white Protestant ministers and six Negro ministers were to change buses at Jacksonville and go to Tallahassee, Florida's capital, before flying back to New York.

Two interracial groups spent the night in Charleston and were to leave for Savannah, Ga., in the morning. From there the seven men and women in each group were to go to Jacksonville, spend the night, and possibly combine for an extended ride, probably to Tampa, Fla.

MAKE FLORIDA TEST

The riders left Washington via Greyhound bus to make the first such test of Florida's segregation practices. They were refused restaurant service in two small South Carolina towns but encountered no trouble in the Charleston terminal restaurant.

Two buses brought 14 of the riders to Charleston from Wilmington, N.C. A third bus carried the clergymen from Raleigh, N.C. to Sumter, where they halted for a church service. The clergymen were refused lunch

associates to have foreseen the possibilities of a propaganda coup when he took a hand in forming the Tractors for Freedom Committee, whose representatives are negotiating with the Castro government.

Beyond this, however, Kennedy was credited with believing from the beginning that the Castro offer might provide the opportunity to marshal world opinion to the point where the dictator could not afford to liquidate his enemies.

Any order of the Cuban leader for mass executions is seen here as likely to start the wheels moving toward eventual cooperative inter-American action against his regime.

If the lives of the prisoners are saved, the Kennedy administration believes it will have an effective answer to Republican contentions that the tractor trade would involve not only the payment of "blackmail" to Castro but possible violation of the Logan Act. This bars U.S. nationals from dealings with other governments under specified circumstances.

Favors Four Church Merger

SEATTLE (AP)—An official in the National Council of Churches says a plan to merge four branches of the Lutheran Church is an important step in religion.

The Rev. Dr. Edwin Espy, New York City, associate general secretary of the National Council, made the statement Wednesday night in a speech at the convention of the Augustana Lutheran Church.

Under the proposed merger, the Augustana Lutherans, the Finnish Evangelical Lutheran Church of America, the American Evangelical Lutheran Church and the United Lutheran church in America would form a single church of 2 1/4 million members.

FISHER WILL GET STATE JOB

HARRISBURG (AP)—Gov. Lawrence says he still wants Dean R. Fisher of Williamsport for the State Liquor Control Board, despite the objections of the Lycoming County Democratic chairman.

The county chairman, Ambrose R. Gampama, has written Lawrence, U.S. Rep. William J. Green the Philadelphia Democratic chairman and Democratic State Chairman Otis B. Morse saying he was opposed to the appointment.

Asked Wednesday if that has changed things, Lawrence replied: "It certainly does not."

WILL APPOINT FISHER

As he has stated previously, he said he would appoint Fisher, a lawyer, as soon as the Senate confirms the appointment of Liquor Board Chairman Patrick E. Kerwin of Lykens to be a Pennsylvania Turnpike Commissioner.

Todd that Gampama's main objection was his contention that he was never consulted on the Fisher appointment, Lawrence replied: "... We have made a number of announcements that we haven't consulted the other chairmen on, from time to time."

The Liquor Board post pays \$15,000 a year.

ALLEGED TOP SECRET PAPER IS PUBLISHED

ISTANBUL, Turkey (AP) — A document, purporting to be a top secret U.S. intelligence report on the disposition of West German army units was published Thursday by the newspaper Cumhuriyet.

The editors said they received the document labeled "USAFE daily intelligence report—secret" from a source in Rome who signed himself "W.S." USAFE is the abbreviation for U.S. Armed Forces Europe.

"We have received previous documents of this sort from the same source," the paper said in a front-page article. "We decided to send these to the appropriate authorities."

CITE LONDON CASE

However, the editors of the influential Turkish paper said that earlier this week they learned that the London Daily Herald carried an article about receiving similar U.S. documents and this "led us to decide to reveal our own experience in this matter."

The document printed Thursday listed West German army units, their numerical strength and their placement. The Herald said its documents purported to give political and military intelligence reports on U.S. allies.

U.S. officials said privately the document appeared to be a plant aimed at creating an impression of lax U.S. intelligence and stirring up anti-American propaganda by depicting the United States as spying on its allies.

First Negro Cardinal Is Very Popular In His Church

By JULES LOH

NEW YORK (AP)—In the tongue of his people, Laurian Cardinal Rugambwa's tribal name means "The Noble One."

It was a name his parents, and perhaps also the village witch doctor, expected he might bear someday as chief of the Kihanja district in the East African territory of Tanaganyika—not, obvi-

ously, as a prince of the Roman Catholic Church.

Monday Cardinal Rugambwa, in the United States on visit, will address the National Press Club in Washington.

VERY POPULAR PRELATE

Since he received his red hat from Pope John XXIII in Rome March 28 last year, Cardinal Rugambwa has become one of the most popular prelates in his church not necessarily because he is the first Negro cardinal, nor even because at 48 he is one of the youngest.

Persons familiar with the traditionally slow-moving church of Rome realize it must be a remarkable man who, pagan by birth, could rise in 17 years from his ordination as a jungle curate to the innermost circle of the Vatican.

When he knelt before the pontiff to receive the highest ecclesiastical rank the Pope can bestow, the other cardinals present for the solemn ceremony spontaneously burst into applause.

SECOND U. S. VISIT

His visit is Cardinal Rugambwa's second to the United States. He was here in 1957, five years after he became bishop of his native diocese of Rutabo and only nine years after he became a priest.

The cardinal describes himself not as a prince, as his church refers to him, but as a beggar. "I roam the world," he has said, "begging for my people."

To his parishioners he says: "What we can't do with our purse we must do with our hands," and mostly in this fashion they have built 37 elementary schools, four

high schools and two hospitals across the 4,000-square-mile expanse of his jungle diocese.

ALL WERE BAPTIZED

The cardinal was born in the village of Bukongo, three miles from Rutabo. His parents, members of the royal Basita tribe, sent him to a bush school conducted by the White Fathers, a Belgian missionary order.

When he was 8 he proposed to his parents the idea of becoming a Christian and all three were baptized together.

At 14 Rugambwa decided to be-

come a priest and went to the White Fathers seminary at Rubya, about 40 miles from his home. At the mission school he had to learn a new language, Kiswahili, in addition to his native Luganda, because other tribes were represented. The seminary classes at Rubya were conducted in English, however, and through that language, which he mastered, he learned to speak Latin. In 1948 he went to Rome to study canon law and added fluent German and French to his linguistic repertoire.

Since he received his red hat from Pope John XXIII in Rome March 28 last year, Cardinal Rugambwa has become one of the most popular prelates in his church not necessarily because he is the first Negro cardinal, nor even because at 48 he is one of the youngest.

Persons familiar with the traditionally slow-moving church of Rome realize it must be a remarkable man who, pagan by birth, could rise in 17 years from his ordination as a jungle curate to the innermost circle of the Vatican.

When he knelt before the pontiff to receive the highest ecclesiastical rank the Pope can bestow, the other cardinals present for the solemn ceremony spontaneously burst into applause.

SECOND U. S. VISIT

His visit is Cardinal Rugambwa's second to the United States. He was here in 1957, five years after he became bishop of his native diocese of Rutabo and only nine years after he became a priest.

The cardinal describes himself not as a prince, as his church refers to him, but as a beggar. "I roam the world," he has said, "begging for my people."

To his parishioners he says: "What we can't do with our purse we must do with our hands," and mostly in this fashion they have built 37 elementary schools, four

high schools and two hospitals across the 4,000-square-mile expanse of his jungle diocese.

ALL WERE BAPTIZED

The cardinal was born in the village of Bukongo, three miles from Rutabo. His parents, members of the royal Basita tribe, sent him to a bush school conducted by the White Fathers, a Belgian missionary order.

When he was 8 he proposed to his parents the idea of becoming a Christian and all three were baptized together.

At 14 Rugambwa decided to be-

come a priest and went to the White Fathers seminary at Rubya, about 40 miles from his home. At the mission school he had to learn a new language, Kiswahili, in addition to his native Luganda, because other tribes were represented. The seminary classes at Rubya were conducted in English, however, and through that language, which he mastered, he learned to speak Latin. In 1948 he went to Rome to study canon law and added fluent German and French to his linguistic repertoire.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

BOYLE FINDS FATHER PAYS ON DAD'S DAY

By HAL BOYLE
NEW YORK (AP) — Mother vowed that this year Father's Day would be different.

"Every year I give dad a necktie," she told her children. "Sis, you always give him a pair of socks. And Junior, you usually give him a tie clip—or something else he never wears and you happen to need."

"Well, this year why don't we give him a real surprise party to show how much we appreciate him? Why don't we treat him to a steak dinner at the best restaurant in town?"

SIRLOIN GULCH

So it was that on the evening of Father's Day a surprised dad was cajoled into putting on his best suit and escorted to the family bus. He was startled when Junior drove the car into the parking lot of the "Sirloin Gulch" restaurant.

"Hey," he protested. "We can't go in there. It's too expensive." "Not tonight it isn't," said mother. "This treat is on us—and we want you to have the very best."

NERVOUS FATHER

Well, dad was still a bit nervous when the shrimp salad arrived. But he began to relax when the waiter uncorked a bottle of red French wine, and put four great steaks and four steaming baked potatoes on the table.

"Gee, this is really nice—but you shouldn't have done it," he mumbled, his mouth full of rich juicy sirloin.

Junior lifted his glass in a toast

"To the best dad in the whole wide world."

"And the nicest," said Sis, lifting her glass.

FAMILY TOAST

"And the kindest and dearest and gentlest," said mother, looking over at him across many years of fondness. She didn't see a balding middle-aged man with a tubby stomach. She saw the man she had married, young and lean and full of eager dreams.

Later, after dessert, the lady at the nearby electronic organ broke into a melody of "Daddy, Dear Old Daddy" and "Oh, Papa." Dad's eyes misted. He felt mellow and sentimental and terribly afraid he might break into tears.

THEN THE BILL

It was at that moment the waiter put in front of him a bill for \$26.38.

Mother gaily snatched it up, handed it to Junior and said, "Pay the man."

"Me?" said Junior. "I'm stony busted, mom. I was going to borrow my share from you." He put the bill in front of Sis.

"I was too," said Sis. She put the bill in front of mother.

DAD ALWAYS PAYS

"Oh, dear," said mother. "I meant to cash a check at the grocery store yesterday, but I forgot."

Silently dad emptied his pockets, including the \$20 he kept hidden in his wallet for emergencies. He finally came up with \$29.13, handed it to the waiter and told him grandly, "Keep the change."

All but dad were embarrassed during the drive home.

FATHERS ARE NECESSARY

"It was our treat," mother kept saying. "We'll pay you back tomorrow."

"Yes, indeed," said Sis.

"You can count on it," said Junior.

Laughing inside himself, dad knew very well they wouldn't. But

Governor Signs Library Bill; Hailed As Beginning Of Better Service In Pa.

Governor David Lawrence on Wednesday signed House Bill No. 132, the new Library Code, into law and hailed it as the beginning of a "new and greater era in the intellectual growth of Pennsylvania."

While the governor declared the new law "will strengthen library service to readers in every community in Pennsylvania," Albert M. Greenfield, chairman of the governor's library commission, pointed out that the new act will not bring better libraries automatically but said the ceremony of the signing of the bill "should make us all aware of our responsibilities to see that library development does in fact take place in Pennsylvania."

The signing by Governor Lawrence of the Library Code into law Wednesday is a milestone in the development of good library services for Pennsylvania.

Greenfield said: "The signing by Governor Lawrence of the Library Code into law Wednesday is a milestone in the development of good library services for Pennsylvania."

"The event marks the end of three years of concerted effort on the part of the Governor's Commission on Public Library Development, the Pennsylvania Library Association, the State Library and various citizens' groups throughout the state for a legal base which will provide public libraries with incentive and a plan of action. It is the first major library legislation in 30 years."

"Librarians, trustees and friends of libraries have reason to be truly heartened by the passage of the Library Code and its signing," stated Mr. Greenfield. "I must stress, however, all that remains undone. A library development bill is not library development. The establishment of minimum standards for public libraries is not the achievement of standards. The authorization of adequate funds to do the job is not the appropriation nor the wise spending of such funds. This ceremony marks a true beginning and should make all of us aware of our responsibilities to see that library development does in fact take place in Pennsylvania."

"Pennsylvania is fortunate in now having a code of library law which is forward-looking, realistic and equitable. Library service is not an expensive item, especially when contrasted with the costs of public education, of public welfare and unemployment compensation. Yet adequate library service has a bearing on each of these services."

Thursday night he won his fourth straight game without a loss, a five-hit 4-1 victory over Johnstown in the seven-inning opener of a doubleheader. Johnstown took the second game 2-1 on Bill Thom's six-hitter for his second victory against one loss.

In other games, Springfield maintained its two game lead with an 11-inning 5-4 triumph over Reading and Binghamton defeated Williamsport 4-2.

Jerry Mallett's solo homer in the fourth ruined Mehuron's bid for a shutout. Jim O'Rourke's homer in the second off Bob Tedesco (3-4) and three straight singles in the same inning pushed across two runs, enough to win the opener for Lancaster.

TOUGH LOSS

Thom struck out nine enroute to victory in the nightcap. It was a tough loss for Woody Hahn (3-4) who pitched a four-hitter and struck out 13. But Hahn hurt himself in the first inning when he walked Bob Stotsky. Stotsky moved to second on a wild pitch and scored on Joe Pedrazzini's single. The winning run came in the ninth. Mallett doubled, went to third on a passed ball and scored on a sacrifice fly.

Ed Herstek's double drove in the winning run for Springfield and gave the victory to Ken Bracey (5-1), the third Springfield pitcher. Southpaw Rete Olsen went the distance for Reading, losing his first game. He had won two.

Southpaw Bob Meyer (5-3) gave up only five hits and struck out

he was happy. They had wanted to surprise him and—well, they had. He had rarely felt more necessary.

NEW LABOR SECRETARY

HARRISBURG (AP)—A. Allen Sulcove of Philadelphia took the office of secretary of labor and industry Thursday in one of the most-largely attended swearing-in ceremonies seen on Capitol Hill in some time.

Some 200 persons crowded into Gov. Lawrence's reception room as Judge Gerald Gleason of Philadelphia administered the oath to the 54-year-old attorney.

Sulcove succeeds William L. Batt Jr., who resigned last month to join the Kennedy administration in Washington as administrator of the aid to distressed areas program.

The Republic of Liberia, presently celebrating 114 years of independence, ranks among the world's leading maritime nations and has the world's largest tanker fleet.

DODGERS HAVE UPS AND DOWNS

LOS ANGELES (AP) — Now the Los Angeles Dodgers know how an elevator operator feels after a hard day in the shaft.

They've been going up and down in the National League standings most of the month and they're just about ready to claim the record for most stops made on two consecutive days.

The Dodgers occupied three different positions Wednesday and then pulled the same trick Thursday, getting off at the top floor after beating Chicago Thursday night on a three-run homer by Tommy Davis in the 12th inning.

The Dodgers started the day in first place but slipped to second when San Francisco defeated Milwaukee in an afternoon game and dropped to third later when Cincinnati beat Pittsburgh.

But Davis' homer, his 11th this year, put them back in command, a half game ahead of both the Reds and the Giants.

The Dodgers, got only six hits all night and four of their six runs were unearned.

Allies And Russia Battle Over Old Berlin Problems

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — Lenient, legal or lethal.

Those are the choices for the West and Russia in settling their Berlin argument. The city will be steadily in the news now although no crisis is expected soon.

President Kennedy and Premier Khrushchev chilled each other's blood when they discussed West Berlin earlier this month. Each warned the other he meant business.

This city—whose ties are with West Germany—lies 110 miles inside Communist East Germany, which the West does not recognize as a legitimate government.

All supplies and people bound for West Berlin must pass through East Germany, which is under the Russian thumb. That's the main Russian weapon in this dispute.

"PAIN TO RUSSIA"

Highly prosperous West Berlin—unlike the much less affluent East Berlin, which the Communists run—has become a pain to Russia.

It's a Western showcase, a Western outpost in the heart of a Communist land. And Khrushchev says it's used to create trouble.

It's also a harbor for Germans fleeing communism in East Germany.

Stalin tried to put an end to all this in 1948 by shutting off Western supplies to the city. President Truman wrecked that move with an airlift.

The West—meaning the United States, Britain and France—has troops in West Berlin and make this argument, based on agreements with Russia growing out of World War II:

KEEP ROUTES OPEN

It has a right to keep troops there and the land-water-rail-air routes—over which people and supplies for West Berlin travel through East Germany—must be kept open.

This is the West's legal argument. As of now it is standing on that.

But for years Khrushchev has been threatening that the wartime agreements are outdated and new solutions must be found. Last weekend he issued a statement on what he thinks must be done.

He said it's time for signing a peace treaty—meaning a treaty which has been pending since World War II—with the East German government. For the West to do this would mean it had caved in and recognized the East German government.

He said further that West Ber-

lin—notice he didn't say Communist East Berlin—would be demilitarized with the signing of a peace treaty. In other words, the Allies would then lose any claim to a right to have troops in Berlin.

West Berlin, he said, would be considered a "free" and demilitarized city. But he said that if the United States balks, this will happen:

Russia will sign the peace treaty with East Germany and turn over to the East German Communists control of all the supply routes to West Berlin. Russia controls them now because the West says it won't do business with East Germany.

"LEGAL SETTLEMENT"

Once the East Germans controlled the routes, the Western powers would have to do business with them. In doing so, the West in effect, would be recognizing the East German government as legitimate, whether it did so formally or not.

This is what the Russians would call a legal settlement.

It's possible—when Khrushchev forces the issues as he is expected to, perhaps after next October—the two sides could work out a situation through compromises which neither is suggesting at this point.

Compromise of the two opposing positions would be a lenient solution.

But if Russia turns over control of West Berlin's access routes to the East Germans and the latter then shut off those routes in order to isolate Berlin, what would the West do?

In the first place, the East Germans wouldn't shut off the routes without a go-ahead from Russia because without Russian backing any attempt to close the routes against Allied military force would be an empty gesture.

But—once the routes were shut and the Allies decided to use force to batter their way through to Berlin—the Russians would have to use force to stop them or face world embarrassment.

Bucket Seats Alone Do Not A Monza Make

■ Gee! ■ Little did we know when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engine car made in this country, and you know what that means: steering light as thistledown. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

HARRISBURG (AP)—The state has the authority to check a deceased person's safe deposit box. This provision, which Gov. Lawrence's office called "perhaps the most important change," is included in the new inheritance tax law signed Thursday by the governor.

His office said the new act "undoubtedly will have impact on revenue" but added that it would be impossible to determine whether it would increase or decrease returns to the state from the tax.

LOST OUT IN 1956

It is the result of a study begun in 1956 by a special committee. The identical proposal was submitted to the 1959 legislature but expired in a dispute between the House and Senate over certain amendments.

Other provisions would exempt intangible property (stocks and bonds) of nonresidents and define liquor licenses held by deceased persons as taxable property.

by Howard Bradie

"Psychiatry and faith are teammates," says Chaplain Joseph H. Lief of the Veterans Hospital at Northport, N. Y. There for 15 years this rabbi has offered patients the strength and inspiration of faith, while psychiatrists have offered them mental health. He has devoted his life to serving the personal and spiritual needs of thousands of patients, says the National Jewish Welfare Board, with "the warmth of a human and with brotherly feeling," becoming "famous in the field of pastoral counseling."

SAYS FANCIER PHONE SERVICE ADDS TO COST

PITTSBURGH (AP)—The growing demand for fancier telephone service is going to cost every phone user more money, an official of the Bell Telephone Co. of Pennsylvania says.

The indication came in testimony Thursday by W. M. Davidson, assistant Bell vice president from Gladwyne, Pa., in a Public Utility Commission hearing probing the reasonableness of phone rates in Pennsylvania.

Davidson said company investments for optional service—colored phones, extensions and individual lines—are generally more risky than investments for normal service.

Thus, the company must maintain its present rate of profit to offset the risk, he explained.

Bell refused to voluntarily reduce its rates for 2,377,000 users in the state, as requested by the PUC, thus the commission ordered the hearings.

The commission requested the reduction in rates, on the grounds that Bell is making a net profit of 6.2 per cent. In 1956, the PUC established 5.6 per cent as a reasonable margin of profit.

Davidson said the company has increased total wages and salaries by 8.3 per cent since the latter part of 1956 and added that increased mechanization has helped to offset the higher wages.

But he predicted the company will not be able to hold the current level of savings in coming months because of the increased demand for optional service.

Rate hearings previously were held in Harrisburg and Philadelphia.

2 ENGINEERS ASSIGNED BY PEACE CORPS

WASHINGTON (AP)—Civil Engineers from Pennsylvania and Delaware were among 12 young men picked by the Peace Corps Wednesday to start training for possible road-building tasks in Tanganyika, Africa.

Arthur Eugene Young, 28, of Schwenksville, Pa., and Jacob Feldman, 21, of Wilmington, Del., will begin their program June 26 at Texas Western College in El Paso, Tex.

Young, a 1957 graduate of Pennsylvania State University, now is a highway engineer for the U. S. Forest Service in Missoula, Mont.

A brother, Theodore, also works for the Forest Service in Portland, Ore.

Feldman said he volunteered because he believes in "world brotherhood through grass roots contact."

He said he was tired of "sophisticated intellectualism."

One of the things which got him interested in underdeveloped areas, said Feldman, was a talk he had with an American Foreign Service man stationed in Turkey who pointed out the need for contact with other peoples.

Both Feldman and Young, the Peace Corps said, have had on-the-job experience in handling surveyor's tools and other engineering equipment.

Young was an Eagle Scout and newspaper carrier for the Norristown Times Herald while an honor student at Schwenksville High School.

A sister, Murial, is a teacher in Carlisle, while another sister, Mrs. Shirley Culp of Creamery, Montgomery County, is a registered nurse.

Feldman was vice president of the student chapter of the American Society of Civil Engineers while at Delaware. He graduated this month and is the youngest chosen for the African training job.

Kennedy Follows Friendly Policy

NEW YORK (AP)—Atty. Gen. Robert F. Kennedy says, before taking federal action in a civil rights problem, he first attempts to determine if the problem can be resolved amicably.

Kennedy speaking Wednesday at the annual meeting of the National Association of Attorneys General, said he was well aware the civil rights question was a sensitive one in many areas.

He said that he follows a policy of nonintervention in civil rights until he has consulted with officials of the state involved.

He said it was his duty to enforce U. S. Supreme Court decisions such as antisegregation rulings.

Of enforcing the highest bench's decisions, Kennedy added: "The federal government is not trying

USC FAVORED IN NCAA 2-DAY TRACK MEET

By RALPH BERNSTEIN
Associated Press Sports Writer

PHILADELPHIA (AP)—There is a track meet opening on Franklin Field here today. But if the experts are right, it will be a walk for a talent loaded squad from the University of Southern California.

Coach Jess Mortensen's USC athletes would be odds on—if there were mutual machines—to win their sixth NCAA track and field title in the past 10 years and 22nd in the 41 year history of the meet.

Mortensen is so confident he's even predicting the score—about 50 points will do it he says.

If there is to be any upset in this seemingly cut and dry competition for team honors, the surprise should come from among Villanova, Michigan, Oregon,

UCLA or San Jose State. Defending champ, Kansas, winner last year with 50 points, doesn't appear to have a chance this trip, although the Jayhawks should be among the top finishers.

HURDLER PULLED MUSCLE

Mortensen has so many horses he merely shrugged his shoulders and forced a frown over news his star sophomore hurdler, Rex Cawley, pulled a muscle Tuesday and probably will scratch from the 440-yard hurdles. Cawley may not even make the National AAU meet next weekend in New York.

Today's competition virtually is all preliminary. Trials will be held in 15 of the two day, 17 event program. The only finals are the 3-mile run and the 3,000 meter steeplechase. No trials are listed for the steeplechase. The other 16 finals will be reeled off Saturday.

Southern Cal has two of five defending champions in the competition. Dallas Long in the shot put and Luther Hayes in the hop, step and jump, not only are favored to repeat, but figure to break the meet records they set last year—61-9 for Long and 50-11½ for Hayes. Other USC point scorers should be Bobby Avant in the high jump, Jim Brewer in the pole vault, Bruce Munn in the sprints, Kevin Hogan in the mile,

to thrust anything down anybody's throat, but we have responsibilities and obligations."

Burleson Thomas and Martin also are defending champions.

The opening exercises for the session were followed with reports by Mrs. Wilbur E. Mackley, secretary, and Mrs. Ivan D. Rickrode, treasurer. As coupon chairman, Mrs. Fager reported that 2,249 coupons were sent in to the department last month.

INFANT FACES BONE SURGERY

CHICAGO (AP)—An infant boy, packed in foam rubber, was flown to Chicago from his home in Little Rock, Ark., Thursday night for surgery aimed to halt his brittle bones from cracking.

Peter Lollar, who has suffered 32 fractures since his birth 18 months ago, slept virtually throughout the flight, said his mother, Lani Lollar, 33.

The brittle-bone condition is osteogenesis imperfecta. Peter is to enter the Shriners' Hospital for Crippled Children for examination to determine whether an operation called "rodding" would help his condition.

The operation involves the insertion of steel rods into bones to provide support and to absorb the pressures of weight and movement, Mrs. Lollar said.

Mrs. Lollar said she and her husband, Oris, an architectural draftsman, were referred to the hospital by their physician in Little Rock.

Button Gwinnett was one of Georgia's three signers of the Declaration of Independence. His signature is now worth considerably more to autograph collectors than is George Washington's.

LADIES' AID MEETING HELD

The Ladies' Aid Society of St. Luke's Union Church met on Wednesday evening at the church, when the opening program included group hymns, "Cleansing Ways" and "Open My Eyes," accompanied on the piano by Miss Sheila Appier; Scripture and prayer, Mrs. Rodney Ernst; topic, "The Witness of the Mission of the Church Through My Vocation," discussed by Mrs. John H. Hartlaub and Miss Sheila Appier; reading, "A Country Woman's Creed," Mrs. Parr R. Breighner; vocal solo, "Sunbeams," Debbie Reichart, with Mrs. James Reichart at the piano; piano solo, Sheila Appier. The birthday of Mrs. Hazel Chronister was noted.

Mrs. John Hartlaub, president, conducted the business and heard the reports of Mrs. Percell L. Worley, secretary, and Mrs. Claude Flickinger, treasurer. It was decided to purchase a sweeper for use at the church. Mrs. Garland Leatherman and Mrs. Elwood Breighner comprise the purchasing committee. A contribution of \$20 was voted to Mont Lawn Children's Home. Mrs. J. Howard Cook gave the guess box and it was received by Mrs. Elwood Breighner.

During the social hour, a group game conducted by Mrs. Ernst was won by Mrs. Ray V. Reichart; other games in charge of the president were won by Mrs. Parr Breighner and Mrs. Elwood Breighner. Refreshments were served to the group by Mrs. Rodney Ernst, Miss Sheila Appier, Mrs. Parr Breighner, Mrs. Roy Reibling and Mrs. John Hartlaub.

The Aid Society will meet again on Wednesday, July 12, when the hostess committee comprises Mrs. Ray Reichart, Miss Judy Appier, Mrs. Fred Breighner, Mrs. James Erb and Mrs. Fred Hartlaub.

The first American Red Cross chapter was founded in Danville, N. Y., Aug. 22, 1881, by Clara Barton.
